SUMMARY

A highly organized professional seeking a career in computing through practical application and continuous growth. I enjoy challenges and being part of a cohesive team environment dedicated to delivering an optimal customer oriented experience. I am always seeking to understand new technologies that keep pace with current trends.

EMPLOYMENT

Nov. 2019 to Current	**Amazon Logistics** · Process Assistant/Flow controller · Thornton, CO

Oversees and coordinates product movement throughout the fulfillment center by communicating to respective stake holders. Manages departmental processes to ensure timely customer order fulfillment. Assigns teams of employees to various jobs within the department to make the best use of available employee skillsets.

Mar. 2016 to Jan. 2019	**TGS Managment** · Retail general manager · Northglenn CO

Provides sales and customer interaction training to retail associates. Creates employee schedule according to customer traffic flow. Maintains building and grounds compliance with state and local guidelines. Implements sales goals to reach targeted revenue. Communicates up and down stream to facilitate owner expectations.

Aug. 2007 to Jan. 2015	**Republic National Distributing** · Sales Representative · Grand Prairie, Tx

Overall territory growth up 45% from 1.4M to 1.9M annual gross sales. Support retailers with shelf set management and customer support to drive higher profit items. Developed tools with Microsoft office suite to track sales opportunities, deals in progress, and customer service objectives. Organized customer routing and scheduling to increase the total number of accounts by 30% from 150 to 200 weekly stops.

EDUCATION

Feb. 2021 to July 2021	**University of Denver** Full stack web application development certification.
Sept. 1997 to Jan. 1999	**University of North Texas** General undergraduate studies
